SUMMARY

Aspiring Full Stack Web Developer looking for an opportunity to get my foot into the door of tech. Having completed an internship for the iOS mobile merchant App team at PayPal, I've helped implement regular regression testing, created tools that help the team manage device inventory, and demonstrated the value of manual testing by reporting critical bugs. With my internship finished up I plan to continue my education on QA best practices, start researching automated testing, and continue to gain familiarity with Swift and Java

RELEVANT SKILLS

- Proficient with Windows and MacOS operating systems
- Microsoft software such as PowerPoint, Excel, and Word
- Communication and collaboration tools with Slack

- Manual Regression testing
- Entry Level Test Plan Development
- Experience with Swift, SQL, HTML, CSS, JavaScript, jQuery, JSON, AJAX, Web APIs, Bootstrap

- Leadership
- Team Collaboration
- Dependability

EXPERIENCE

PayPal, San Jose, CA

Quality Assurance Tester intern   November 2019 – January 2020
- Monitored our biweekly iOS releases in search of irregular activities or crashes by our consumers through log tools such as Crashlytics and Loggly.
- Validated Pull Request that have been made daily and worked closely with the engineers to understand the changes that are being made to the code branch
- Established and implemented the iOS regression test suite for the merchant app that is used to validate the quality of each release.
- Conducted biweekly manual regression test runs to validate that our Merchant Application meet our functionality standards and is free of bugs

iOS Development Intern   August 2019 – October 2019
- Completed a Raywenderlich SWIFT bootcamp within the first two weeks of my internship, learning about the fundamentals of the iOS development process which included programming, designing, saving data, UIKIT, git, and publishing to the app store.
- Progressed through creating an iOS application, which will serve as a Check-in, Check-out application for loaning out our team's test devices

Chipotle Mexican Grill, San Mateo, CA   January 2015– June 2019
Service Manager
- Minimized weekly spending for paper items by $500 by executing precise inventory counts and only ordering what was needed, leading to a weekly saving of $500
- Managed labor cost by nearly 5 hours daily by paying close attention to daily sale trends and acted accordingly by sending crew members home if needed, resulting in money saved on labor
- Developed a 45-minute closing checklist by inputting systems in place to effectively close the restaurant, resulting in getting out 15 minutes earlier than scheduled and saved daily labor

EDUCATION

Berkeley Full Stack Bootcamp, Berkeley, CA   December 2020 – Current
The Berkeley Coding Boot Camp comprises a series of lectures designed to teach students the skills of a full-stack web developer. The program starts with lessons on building front-end sites that feature responsive layouts and interactive components like forms, quizzes, and games. The material then shifts toward the back end with an emphasis on command-line programs and database management. Mastery of both ends of the full-stack provides you enough basis for creating dynamic web apps with various features, including authentication systems and user-generated content.

Year Up, San Francisco, CA   March 2019 – Current
Year Up is an intensive, competitive technical training and career development program with over 250 corporate partners, graduating thousands of students annually across the nation. The program includes technical skill courses, professional training, a six-month internship, and the opportunity to earn credit recommendations through the American Council on Education (ACE).
- Completed coursework in CIS, Professional Skills, and Business Communications, with specialized training in Quality Assurance.
- Mindfulness elective that helped me develop skills to stay calm and collective in the workplace.
- Networking events that helped strengthen my ability to collaborate with fellow colleagues.

College of San Mateo, San Mateo, CA   August 2013-August 2018
Completed 34 transferrable units towards transferring to a 4-year University
